# Overview

## 1 Concept

- Overview
- What it is not

## 2 Software Architecture

- Overview
- Requirements
- Design
- Persistence
- Interface

# Project Overview

The Mind Map PIM is a system that pulls different social media platforms together and only displays information relevant to you at the current moment in your life in the form of a dynamic mind map.

# What it is not

The Mind Map PIM is not a new social media platform. Rather it acts as a filter for current your current social media platforms. It uses intelligent algorithms to determine what information you would most likely want to see.
